Index to Volume 147

This annual index is organized by first author and title page. Page numbers refer to the following issues:

Number 1 (March): Pages 1 through 144
Number 2 (June): Pages 145 through 288
Number 3 (September): Pages 289 through 430
Number 4 (December): Pages 431 through 574

AUTHOR INDEX

Barnett, M. A. *Parents' ratings of instrumental and expressive responses to children's hypothetical interpersonal problems*, 139–141.

Barnett, M. A. *Sex bias in the helping behavior presented in children's picture books*, 343–351.

Bennett, M. *Children's attributions of disposition to others' affective behavior*, 423–425.

Blevins, B., & Cooper, R. G., Jr. *The development of transitivity of length in young children*, 395–405.

Borduin, C. M., Pruitt, J. A., & Henggeler, S. W. *Family interactions in black, lower-class families with delinquent and nondelinquent adolescent boys*, 333–342.

Bredemeier, B. J., & Shields, D. L. *Moral growth among athletes and nonathletes: A comparative analysis*, 7–18.

Bredemeier, B. J., & Shields, D. L. *Game reasoning and interactional morality*, 257–275.

Burns, B. *Perceptual development and categorization: I. An investigation of task demands, stimulus set similarity, and age*, 359–370.

D'Angelo, E. J. *Security of attachment in infants with schizophrenic, depressed, and unaffected mothers*, 421–422.

Durrant, N. C., & Henggeler, S. W. *The stability of peer sociometric ratings across ecological settings*, 353–358.

Elrod, M. M., & Milner, J. O. *Children's awareness of inconsistencies in instructions*, 199–208.

Erdwins, C. J., & Mellinger, J. C. *Reentry women after graduation*, 437–446.

Fabes, R. A. *The self-observation of performance and young children's task interest*, 69–78.

Fisher, T. D. *An exploratory study of parent-child communication about sex and the sexual attitudes of early, middle, and late adolescents*, 543–557.

Gold, R. *Performance on Donaldson and McGarrigle's "Cars and Garages" task as evidence about the reasons for failure on Piaget's number-conservation task*, 151–165.

Harris, I. D., Howard, K. I., & Howard, A. *Psychological consequences of majority-minority status: A questionnaire study of two high schools*, 19–30.

Harvey, C. B., Manshu, Z., Biao, K. C., & Jue, Z. F. *Spatial conceptions in Chinese and Canadian children*, 457–464.

Hull, D. B., & Hull, J. H. *A note on*

the evaluation of stereotypical masculine, feminine, and neutral behaviors of children, 135–137.
Jennings, K. D., Curry, N. E., & Connors, R. *Toddlers' social behaviors in dyads and groups*, 515–528.
Kline, P., & Cooper, C. *Psychoticism and creativity*, 183–188.
Kohn, P. M., Annis, H. M., & Chan, D. W. *Maturational changes in Canadian adolescents' cognitive attitudinal structure concerning marijuana*, 321–331.
Kontos, S., Mackley, H., & Baltas, J. G. *Story knowledge in preschoolers: A comprehensive view*, 189–197.
Kontos, S., & Nicholas, J. G. *Independent problem solving in the development of metacognition*, 481–495.
Krantz, M., & Burton, C. *The development of the social cognition of social status*, 89–95.
Larrieu, J., & Mussen, P. *Some personality and motivational correlates of children's prosocial behavior*, 529–542.
Lee, A. M., & Austin, M. *Sex referent cues, success estimations, and performance of children on a lateral jumping task*, 371–378.
Liederman, J., Kohn, S., & Wolf, M. *Words created by children versus aphasic adults: An analysis of their form and communicative effectiveness*, 379–393.
Lucca, N., & Pacheco, A. M. *Children's graffiti: Visual communication from a developmental perspective*, 465–479.
Madison, L. S., Budd, K. S., & Itzkowitz, J. S. *Changes in stuttering in relation to children's locus of control*, 233–240.
Martindale, C., Covello, E., & West, A. *Primary process cognition and hemispheric activity*, 79–87.
Matthews, M. H. *The influence of gender on the environmental cognition of young boys and girls*, 295–302.
McBride, K. M., & Austin, A. M. B. *Computer affect of preschool children and perceived affect of their parents, teachers, and peers*, 497–506.
Miller, D. J., & Thelen, M. H. *Imitation in a naturalistic setting as a function of response uncertainty*, 113–121.
Milner, J. O., & Elrod, M. M. *Language reception in three modes*, 123–133.
Parish, T. S., & Price, B. E. *A comparison of self-concepts between those who have and have not sought psychological counseling*, 277–278.
Peterson, C. C., Peterson, J. L., & Carroll, J. *Television viewing and imaginative problem solving during preadolescence*, 61–67.
Phinney, J. S. *The structure of 5-year-olds' verbal quarrels with peers and siblings*, 47–60.
Pinard, A., & Pierre-Joly, R. *Interference effects in the conservation of weight*, 309–319.
Portes, P. R., Dunham, R. M., & Williams, S. A. *Preschool intervention, social class, and parent-child interaction differences*, 241–255.
Prager, K. J. *Identity development, age, and college experience in women*, 31–36.
Quay, L. C., & Pinkett, K. E. L. *Ethnic and social class comparisons of preschoolers' verbal and nonverbal communication in object-centered and object-free play*, 427–429.
Rabinovich, B. A., Suwalsky, J. T. D., & Pedersen, F. A. *The effects of maternal employment on infants: A pretest-posttest design*, 283–285.
Raskin, P. M. *The relationship between identity and intimacy in early adulthood*, 167–181.
Richardson, A., & Harris, L. J. *Age trends in eidetikers*, 303–308.
Riese, M. L. *Implications of sex differences in neonatal temperament for early risk and developmental/environmental interactions*, 507–513.

Rosenwasser, S. M., McBride, P. A., Brantley, T. J., & Ginsburg, H. J. *Children and aging: Attitudes, differentiation ability, and quantity and quality of contact*, 407–415.

Rosser, R. A., Campbell, K. P., & Horan, P. F. *The differential salience of spatial information features in the geometric reproductions of young children*, 447–455.

Saigh, P. A. *Religious symbols and the WISC-R performance of Roman Catholic junior high school students*, 417–418.

Scott, M. S., & Greenfield, D. B. *Young children's intensional knowledge of superordinate categories*, 219–232.

Shimonaka, Y., Nakazato, K. *The development of personality characteristics in Japanese adults*, 37–46.

Simmons, C. H., & Zumpf, C. *The gifted child: Perceived competence, prosocial moral reasoning, and charitable donations*, 97–105.

Singer, M. S., & Stacey, B. G. *Causal attributions, perceived consequences of unemployment, and perceptions of employment prospects among adolescents in New Zealand*, 559–565.

Smith, J., & Krantz, M. *Physical attractiveness and popularity in children: A methodological refinement and replication*, 419–420.

Tait, P. E. *Visual impairment, verbal humor, and conservation*, 107–111.

Webb, T. E., Singleton, C. R., Laplace, A. C., & VanDevere, C. A. *Genetic influence in the expression of affectivity: Twin study of children and adolescents*, 279–281.

Wentworth, N., & Witryol, S. L. *What's new? Three dimensions for defining novelty*, 209–218.

TITLE INDEX

Age trends in eidetikers. *Alan Richardson & Leslie J. Harris*. 303–308.

Causal attributions, perceived consequences of unemployment, and perceptions of employment prospects among adolescents in New Zealand. *Ming S. Singer & Barrie G. Stacey*. 559–565.

Changes in stuttering in relation to children's locus of control. *Lynda S. Madison, Karen S. Budd, & Judy S. Itzkowitz*. 233–240.

Children and aging: Attitudes, differentiation ability, and quantity and quality of contact. *Shirley Miller Rosenwasser, Patricia A. McBride, Terri J. Brantley, & Harvey J. Ginsburg*. 407–415.

Children's attributions of disposition to others' affective behavior. *Mark Bennett*. 423–425.

Children's awareness of inconsistencies in instructions. *Mimi Milner Elrod & Joseph O. Milner*. 199–208.

Children's graffiti: Visual communication from a developmental perspective. *Nydia Lucca & Angel M. Pacheco*. 465–479.

A comparison of self-concepts between those who have and have not sought psychological counseling. *Thomas S. Parish & Beth E. Price*. 277–278.

Computer affect of preschool children and perceived affect of their parents, teachers, and peers. *Kristin Murray McBride & Ann M. Berghout Austin*. 497–506.

The development of personality characteristics of Japanese adults. *Yoshiko Shimonaka & Katsuharu Nakazato*. 37–46.

The development of the social cognition of social status. *Murray Krantz & Christine Burton*. 89–95.

The development of transitivity of length in young children. *Belinda L. Blevins & Robert G. Cooper, Jr.* 395–405.

The differential salience of spatial information features in the geometric reproductions of young children. *Rosemary A. Rosser, Kathleen P. Campbell, & Patricia F. Horan.* 447–455.

The effects of maternal employment on infants: A pretest-posttest design. *Beth A. Rabinovich, Joan T. D. Suwalsky, & Frank A. Pedersen.* 283–285.

Ethnic and social class comparisons of preschoolers' verbal and nonverbal communication in object-centered and object-free play. *Lorene C. Quay & Kathleen E. L. Pinkett.* 427–429.

An exploratory study of parent-child communications about sex and the sexual attitudes of early, middle, and late adolescents. *Terri D. Fisher.* 543–557.

Family interactions in black, lower-class families with delinquent and nondelinquent adolescent boys. *Charles M. Borduin, Julie A. Pruitt, & Scott W. Henggeler.* 333–342.

Game reasoning and interactional morality. *Brenda Jo Bredemeier & David L. Shields.* 257–275.

Genetic influence in the expression of affectivity: Twin study of children and adolescents. *Thomas E. Webb, Cheryl R. Singleton, Arthur C. Laplace, & Chris A. VanDevere.* 279–281.

The gifted child: Perceived competence, prosocial moral reasoning, and charitable donations. *Carolyn H. Simmons & Connie Zumpf.* 97–105.

Identity development, age, and college experience in women. *Karen J. Prager.* 31–36.

Imitation in a naturalistic setting as a function of response uncertainty. *David J. Miller & Mark H. Thelen.* 113–121.

Implications of sex differences in neonatal temperament for early risk and developmental/environmental interactions. *Marilyn L. Riese.* 507–513.

Independent problem solving in the development of metacognition. *Susan Kontos & Johanna Grant Nicholas.* 481–495.

The influence of gender on the environmental cognition of young boys and girls. *M. Hugh Matthews.* 295–302.

Interference effects in the conservation of weight. *Adrien Pinard & Regine Pierre-Joly.* 309–319.

Language reception in three modes. *Joseph O. Milner & Mimi Milner Elrod.* 123–133.

Maturational changes in Canadian adolescents' cognitive attitudinal structure concerning marijuana. *Paul M. Kohn, Helen M. Annis, & David W. Chan.* 321–331.

Moral growth among athletes and nonathletes: A comparative analysis. *Brenda Jo Bredemeier & David L. Shields.* 7–18.

A note on the evaluation of stereotypical masculine, feminine, and neutral behaviors of children. *Debra B. Hull & John H. Hull.* 135–137.

Parents' ratings of instrumental and expressive responses to children's hypothetical interpersonal problems. *Mark A. Barnett.* 139–141.

Perceptual development and categorization: I. An investigation of task demands, stimulus set similarity, and age. *Barbara Burns.* 359–370.

Performance on Donaldson and McGarrigle's "Cars and Garages" task as evidence about the reasons for failure on Piaget's Number-Conservation task. *Ron Gold.* 151–165.

Physical attractiveness and popularity in children: A methodological refinement and replication. *Jonica Smith & Murray Krantz.* 419–420.

Preschool intervention, social class, and parent-child interaction differences. *Pedro R. Portes, Richard M. Dunham, & Shavon A. Williams.* 241–255.

Primary process cognition and hemispheric asymmetry. *Colin Martindale, Edward Covello, & Alan West.* 79–87.

Psychological consequences of majority-minority status: A questionnaire study of two high schools. *Irving D. Harris, Kenneth I. Howard, & April Howard.* 19–30.

Psychoticism and creativity. *Paul Kline & Colin Cooper.* 183–188.

Reentry women after graduation. *Carol J. Erdwins & Jeanne C. Mellinger.* 437–446.

The relationship between identity and intimacy in early adulthood. *Patricia M. Raskin.* 167–181.

Religious symbols and the WISC-R performance of Roman Catholic junior high school students. *Philip A. Saigh.* 417–418.

Security of attachment in infants with schizophrenic, depressed, and unaffected mothers. *Eugene J. D'Angelo.* 421–422.

The self-observation of performance and young children's task interest. *Richard A. Fabes.* 69–78.

Sex bias in the helping behavior presented in children's picture books. *Mark A. Barnett.* 343–351.

Sex referent cues, success estimations, and performance of children on a lateral jumping task. *Amelia M. Lee & Martha Austin.* 371–378.

Some personality and motivational correlates of children's prosocial behavior. *Julie Larrieu & Paul Mussen.* 529–542.

Spatial conceptions in Chinese and Canadian children. *C. Brian Harvey, Zhu Manshu, Kang Ching Biao, & Zhang Fu Jue.* 457–464.

The stability of peer sociometric ratings across ecological settings. *Norma C. Durrant & Scott W. Henggeler.* 353–358.

Story knowledge in preschoolers: A comprehensive view. *Susan Kontos, Holly Mackley, & Joyce Graham Baltas.* 189–197.

The structure of 5-year-olds' verbal quarrels with peers and siblings. *Jean S. Phinney.* 47–60.

Television viewing and imaginative problem solving during preadolescence. *Candida C. Peterson, James L. Peterson, & John Carroll.* 61–67.

Toddlers' social behaviors in dyads and groups. *Kay Donahue Jennings, Nancy E. Curry, & Robin Connors.* 515–528.

Visual impairment, verbal humor, and conservation. *Pearl E. Tait.* 107–111.

What's new? Three dimensions for defining novelty. *Naomi Wentworth & Sam L. Witryol.* 209–218.

Words created by children versus aphasic adults: An analysis of their form and communicative effectiveness. *Jacqueline Liederman, Susan Kohn, & Maryanne Wolf.* 379–393.

Young children's intensional knowledge of superordinate categories. *Marcia S. Scott & Daryl B. Greenfield.* 219–232.
